BCU Sprachschule – Learning with Fun!

Since 1999, [Business Communication Unlimited](#) has been building bridges between cultures & connecting people through language learning. Whether for work or leisure - in a group or individually - we accompany our students in their learning process & adapt to their individual needs. Our motto has always been: **“Learning languages to overcome borders.”**

Originally, BCU’s main focus was on Business English, French and Spanish, to successfully provide language training for internationally operating companies. As digitalisation has progressed and the demand for specialised language skills in the healthcare sector has grown, BCU had to enlarge their language programme. Today, we offer [German courses from A1 to C1](#) as well as [preparation courses](#) for the German Fachsprachprüfung (FSP) needed by all healthcare professionals. We also continue to offer our very successful C1 Medical German courses, preparing international doctors for the demanding [Medical Language Examination \(Fachsprachprüfung\)](#).

What makes BCU special is the [personal support and close guidance](#) we provide throughout the learning process to all our participants. We take the time to understand our learners’ needs and [remain highly flexible](#) when planning our courses, offering [both online and face-to-face training](#).

Philosophy & Method

Our teaching philosophy is based on the [Common European Framework Reference \(CEF\)](#). We focus on the four basic language skills – [Reading, Listening, Writing and Speaking](#) – together with [Grammar](#) and [Communication](#).

Our Method „[individual – innovative – interactive → effective](#)“ reflects our approach to teaching. Our aim is to communicate relevant contents in a lively and creative way and help our learners achieve their individual goals, by implementing our Method as follows:

- ▶ **Individual:** Every learner is different. Our lessons are adapted to individual learning styles, goals and needs, ensuring that each participant receives the support that works best for them.
- ▶ **Innovative:** We combine up-to-date teaching materials with creative learning concepts based on modern approaches to language learning – thus making learning more effective and granting long-term progress.
- ▶ **Interactive:** Communication and interaction are at the heart of our lessons, giving all participants the opportunity to actively practise and develop all CEF language skills.
- ▶ **Effective:** By bringing these three principles together, we grant our learners’ fast and lasting progress, and help them reach their professional goals.
